The high-quality LD remanufactured C6656AN (HP 56) black inkjet cartridge is an OEM HP C6656AN cartridge that has been professionally remanufactured by LD Products after one cycle of service. It has been disassembled, fully inspected for any problem areas such as possible leakage, thoroughly cleaned including printhead nozzles, and all worn components have been replaced. A fresh supply of pigment based ink has been added before resealing, and then the cartridge underwent a testing process for performance, print quality and page yield. This quick-drying, pigment-based ink offers optimum performance and productivity with superior resistance to smudging and bleeding.

Our 100% Satisfaction Guarantee ensures that you will get excellent printouts when you buy our remanufactured C6656AN. LD remanufactured ink cartridges are not remanufactured by HP.
